European Coast Guard
Functions Academy Network
Project
ECGFA NET III

Closing Seminar
11th July, Helsinki

Deputy Project Manager
Ms. Sofia Härkönen

RAJA
Ongoing efforts on CGF capacity building

TWA Strategic Annual Plan for 2019 include (i.a.) the following priorities for capacity building:

- To continue collecting and assessing cross-sector training needs of national authorities performing CGFs.
- To coordinate the preparation of the Handbook on European Cooperation on CGFs.
- To ensure consistency between the SQF for CGF and the relevant EU and international standards.
- To provide joint cross-sectoral training by the relevant Agencies related to CGF.

ECGF Training Network aims to be a part of these capacity building activities in collaboration with the EU Agencies and the ECGFF.
Sustaining the project results

EUROPEAN COAST GUARD FUNCTIONS TRAINING NETWORK

Exchange programme

Training Portal
Proposal to sustain the results

Incorporating the results to the inter-Agency cooperation framework and cooperating with the ECGFF

- ECGFF invited as **apex body for adopting** the SQF for CGF
- EFCA, EMSA and Frontex invited as **apex body for managing** the SQF for CGF in collaboration with the Network and the ECGFF
- EFCA invited to coordinate the work of the Network, coordinate the Exchange Programme and host the Training Portal
Proposed future of the project results

TWA

TSC 1 – EMSA
Sharing of information and surveillance services

TSC 2 – EFCA
Capacity building and risk assessment

TSC 3 – Frontex
Sharing capacities and legal issues

ECGFF

ECGF TRAINING NETWORK

ECGF TRAINING PORTAL

ECGF TRAINING EXCHANGE

Workshop 1:
Cross-sectoral training needs

Workshop 2:
Managing the CGFSQF
One possible cooperation model: workshops

**Workshop 1: Training**
- Identifying cross-sectoral needs and finding solutions to them
- **Tools:** Exchange Programme and Training Portal
- Planning and executing initiatives that support capacity building in CGF

**Workshop 2: SQF for CGF**
- Monitoring the implementation of the SQF
- Supporting its implementation, e.g. by planning trainings
- Assess the need for revisions of the SQF to maintain the usability of the framework
